

Digger is making himself at home

Meet Digger, your sponsored puppy.

Thanks to your support, Digger will start learning about the world in a loving home, building his confidence, and growing into a dog that makes life-changing connections with the people we work with.

As Digger settles into his new home, our puppy socialisers will make sure he gets plenty of love, attention and new experiences to get him ready for the world.

So far, Digger has been an affectionate and playful pup, and is currently being shown the ropes by his new big sister, Pumpkin.

Over the next two years, we'll get to know Digger's personality and what makes him thrive. His health and happiness are our top priority, and will help us to better understand what role is right for him.

Whether that's offering emotional and practical support as an assistance dog, or bringing people together in schools, care homes or community settings. There are so many ways Digger could have a meaningful impact and we can't wait to see what the future holds.

Thank you for supporting Digger. With your help, he could go on to form the kind of connections that help people live fuller, more independent lives. And that's a wonderful thing to be a part of.
