HOW TO TEACH: SPIN

DOGS FOR GOOD

Step 1

With your dog in a stand position hold a treat in front of his nose and lure him round to one side. Give him the treat once he has started turning. Always choose the same direction to spin!

Step 2

When he is happy turning his head and shoulders away from you, make the movement into more of a circle and move your arm around so he follows it and does a spin.

Practice makes perfect!
Have fun!

Step 3

Keep practicing and making sure he is following the treat around in a full circle.

Step 4

Remove the treat from your hand and instead just use a point/hand signal in the same motion. He should respond with doing a spin and make sure you give him a treat when he does.
